

# SUB

SOUL-SHAKING SOUND.  
HEART-POUNGING DESIGN.  
ONE-BUTTON SETUP.

**SONOS**  
THE WIRELESS HiFi SYSTEM

The Sonos SUB will fill an entire room with thick layers of deep, bottomless sound that let you hear and feel every chord, kick, splash and roll. You won't just hear the difference our wireless subwoofer makes—you'll feel it in your bones.

## **ALL SOUND, ZERO VIBRATION.**

Two force-cancelling speakers positioned face-to-face means all the sound and energy from the music comes through loud and clear, and none of it is lost in cabinet buzz or rattle.

## **ONE-BUTTON SETUP**

No wiring. No programming. Press one button, follow the simple prompts on your Controller and the system automatically adjusts audio settings to perfectly balance your SUB and the paired Sonos component for a flawlessly optimized, whole-room listening experience.

## **WHEREVER YOU WANT IT**

Because it's wireless and designed to perform perfectly, whether positioned horizontally or vertically, you can put the SUB anywhere you want in the room—even lying flat under a couch.

## **THE SONOS SYSTEM**

Sonos lets you stream all the music on earth anywhere in your home. Start with one Sonos player then expand wirelessly, wherever you want your music.

The SUB works with all Sonos amplified components. See below Supported Devices for details.

## SUB SPECS

### AUDIO

**AMPLIFIER** Two Class-D digital amplifiers perfectly tuned to match the speakers and acoustic architecture.

**SPEAKERS** Two force-cancelling speakers positioned face-to-face for deeper, richer sound and zero cabinet buzz or rattle.

**DUAL ACOUSTIC PORTS** Carefully tuned to enhance the SUB performance.

**FREQUENCY RESPONSE** Plays down to 25 Hz.

**ALL DIGITAL SOUND** All filter settings, active equalization, and time alignment are done digitally through state-of-the-art DSP (Digital Signal Processing) circuitry for zero-loss audio quality and energy.

**AUTOMATIC EQUALIZATION** The system automatically adjusts audio settings across all connected components to ensure amazing sound quality.

### NETWORKING

**WIRELESS CONNECTIVITY** SonosNet 2.0, a secure AES encrypted, peer-to-peer wireless mesh network.

**SONOSNET EXTENDER** Functions to extend and enhance the power of SonosNet 2.0

**ETHERNET PORT** A single Ethernet port that can connect the SUB to a wired home network.
